## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 13-27 are allowed over the Prior Art of record.
2. The following is an examiner's statement of reasons for allowance: The primary reasons for allowance of independent claim 13 is the inclusion of the limitations for detecting the amount of splash water, to which a brake pad is subjected on a wet roadway, the device comprising a 'test brake pad', the test brake pad having a hygroscopic friction lining which is able to absorb at least 5% water. None of the Prior Art teach the employment of a 'test brake pad' having the specific hygroscopic properties recited. As to independent claim 24, the primary reasons for allowance is the inclusion of the method step limitations of determining the amount of splash water to which a brake pad is subjected to by employing a 'test brake pad' having a hygroscopic friction lining which is able to absorb at least 5% water, employing the specific method steps recited. Once again, none of the Prior Art teach the employment of a 'test brake pad' having the specific properties recited, nor the specific method steps recited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
